

Enjoy Fall fun at local farms this Halloween season!

When fall is in the air, the pumpkins are prime for pickin'. Make it a fun day for the whole family by coming to one of the great family farms to find the perfect pumpkin, enjoy harvest decorations, take a hayride or just savor the beautiful countryside.

A couple of farms offer u-pick apple orchards. Gathering fresh-from-the-tree fruit to turn into favorite fall desserts like cobblers and pies is irresistible!

A favorite activity for families is getting "lost" in a corn maze. There are a variety of mazes to choose from, some are even "haunted" at night for that spooky experience!

Several of the farms allow you to reserve use of their maze and firepits for group outings. Visit each farm's website to confirm cost and the days/hours each maze is open to the public.

A couple of the farms offer Zombie Paintball (and even a Haunted House) for an outing you will never forget!

Each farm has many activities for the whole family. Discover Escape Rooms, gem mining, slides, duck races, hay mazes and so much more!

This year you can even stroll through a 1-1/2 mile walking path filled with glowing pumpkins!

Bring the kids, bring the grandparents and bring your camera to catch all the fun!

Check out each farm's website and plan your fall fun for the entire month!
